

SAM DECOTEAU

UX ENGINEER & PRODUCT DESIGNER

SamOnCanvas.com | sfdecoteau@gmail.com | 617-947-2402

Designing intuitive, accessible products that simplify complex systems.

With a background in development and creative design, I turn complex needs into clear, usable, and human-centered experiences. My experience spans systems thinking, tight collaboration, & real-world impact.

SKILLS

UX + Product: Interactive Design • Information Architecture • Wireframing • Prototyping • UX Research • Systems Design • Accessibility/Usability Testing (WCAG) • Adobe Creative Suite (Photoshop, Lightroom, XD, Lightroom, Premier, After Effects)

Development + Design: HTML5/CSS • JavaScript • Node.js • Express • MongoDB • React.js • React Native • Angular • Python • Wordpress • PHP • Figma • Sketch • Miro • Monday.com • Brand Management

Additional: Copywriting • Microsoft Office (Excel, Powerpoint, Sharepoint, Word) • Photography • Graphic Design • Articulate 360° • CRMs (JobVite, Salesforce, Greenhouse, Beamery, HubSpot)

WORK EXPERIENCE

Product Designer + Front-End Developer

AESARA - Chapel Hill, NC (Remote) | June 2020 - Oct 2024

- Led UX strategy for enterprise web applications supporting global consulting teams, turning complex HEOR data into clear, dynamic experiences
- Designed, developed, and prototyped interfaces using React for multifaceted workflows, improving how users navigate and interpret data across products
- Partnered with stakeholders to define features and iterate on solutions, improving product alignment, reducing development cycles, and ensuring product-market fit
- Identified workflow improvements through user feedback and product analytics, leading to strategic development targets
- Implemented WCAG 2.1 accessibility standards, ensuring global compliance and usability

NOTED PRODUCTS

ATLAS Evidence Strategy Platform

Enterprise platform used to plan, manage, and communicate evidence strategies across the product lifecycle.

- Supported the design strategy of core product experiences, directing how users navigate evidence planning, data analysis, and cross-team collaboration within a unified system

Takeda - ADHD Cost Calculator

Interactive tool that helps users estimate the financial impact of ADHD based on usage and economic factors.

- Designed and built an embedded cost calculator that helps users understand the financial impact of ADHD by turning clinical and economic data into a country-specific, interactive estimate

WORK EXPERIENCE (continued)

Full Stack Product Engineer

Resilient Coders - Cambridge, MA | Jan 2020 - June 2020

- Conceptualized and developed 13 user-facing web applications, translating product requirements into functional, intuitive interfaces
- Applied full-stack development best practices to build responsive, high-performing applications
- Troubleshoot and resolved technical issues within fast-paced project environments, while ensuring reliable delivery

Campus Recruiter

Wayfair - Boston, MA | Feb 2018 - Dec 2019

- Attracted top product, analyst, and engineering talent through strategic candidate experience design and employer branding
- Strengthened cross-functional collaboration through company-wide internal programming and communication initiatives
- Co-led WayBlack Employee Resource Group, increasing collaboration and diversity through engaging internal communications and events

Operations Manager

Sandpiper Rentals - Martha's Vineyard, MA | Jan 2014 - Dec 2017

- Oversaw daily operations for 600+ vacation rental properties across Martha's Vineyard, ensuring 98% occupancy through effective scheduling and dynamic pricing techniques
- Developed and led training programs for a 12-member team, reducing onboarding time by 40%
- Created an automated occupancy system using Excel and Google Sheets, tracking customer satisfaction, cutting administrative tasks by 50% and supporting real-time inventory tracking

Visual Designer, Editor, + Photographer

Self-Employed | Jan 2009 - Dec 2016

- Led photography, visual design, and layout projects for clients including Anansi Hayes Studio, Union Park Capital, Harvard University, and Randi Baird Photography, translating client goals into cohesive visual themes
- Managed end-to-end client engagements from concept through delivery, creating high-quality brand, editorial, and marketing assets using Adobe Creative Suite

EDUCATION

B.A. Food Studies, Design, and Media

Johnson & Wales University - May 2026

- Applicable Coursework: Human-Computer Interaction, Digital Media Design, User Research Methods, Information Architecture

Additional Training: Photography Certificate, Boston University Center for Digital Imaging Arts (2010)
